Our Customers Speak For Us.

White-Blakeslee, Mfg. Co., Birmingham, Ala.

Gentlemen:—We are running one of the "Blakeslee" 6-H. P. Gasoline Engines in connection with a small generator. We run direct to the dynamo pulley, and can make as true a light as the best steam engines in the country. We also find it very simple and economical in the amount of gasoline it consumes—in other words it gives perfect satisfaction.

Respectfully,

A. G. EZELL & SONS.

GASOLINE ENGINES

Suitable for every purpose.

White-Blakeslee Mfg. Co., Birmingham, Ala.

Gentlemen:—Our engine (H. P. Portable) is working satisfactorily, and we find it of great convenience in doing the work about the farm, which requires an engine, as it is a very easy matter to start the engine to working after we get it on the ground. I find that by the time the men get in place, and everybody is ready, the engine is working and operations are ready to begin.
